Contract Website.....	<a href="https://acc.army.mil/contractingcenters/acc_ri/">https://acc.army.mil/contractingcenters/acc_ri/</a>

### SCOPE

The Logistics Civil Augmentation Program, or LOGCAP, is an Army strategic sourcing preferred source for base operations support and sustainment services. LOGCAP V provides each Army Service Component Command Commander a dedicated regional sustainment capability with a 72-hour response time, and scalability and flexibility that aligns with the military operational tempo. LOGCAP V augments theater sustainment, engineering, and base operations support forces with a capability that can rapidly respond to multiple global contingency and non-contingency missions across the entire continuum of military operations. V2X holds operational Performance and Set the Theater task orders supporting the CENTCOM and INDOPACOM Geographic Combatant Commands (GCC). V2X is also eligible to compete for and operate performance task orders in all other GCCs.
